Solution resides in the details

DIGITAL PATHOLOGY COCKPIT

The future of pathology is digital. Working with digital slides instead of glass slides enables you to diagnose faster, easier and in better quality. However, switching to digital slides requires a change in the way you diagnose.

3DHISTECH is introducing the Digital Pathology Cockpit which combines the comfort of microscope navigation with the highest quality digital slides*. What is more, the Digital Pathology Cockpit allows you to fully utilize the advantages of digital slides in the clinical environment.

The Panoramic digital slide scanners have won the 2012 International Scanner Contest in the following categories: Scanning speed at 20x and at 40x resolution, Image quality at 40x resolution, Image analysis, Green IT.

SETUP

High resolution monitor for case access, slide viewing and diagnosing

- 30" Barco Coronis Fusion 4MP DL or
- 27" Fujitsu Display P27T or similar

SlideDriver for easy navigation

- Microscope-like navigation for digital slides
- Device support in Panoramic Viewer

iPad Viewer

- Remote digital slide access anywhere: true mobile pathology
- Intuitive navigation

Software

- Case Viewer for slide viewing and case management
- CaseCenter for remote slide access

With the Digital Pathology Cockpit you can finally enjoy the new possibilities of digital slides and the ease of navigation at the same time! The Digital Pathology Cockpit is fully customizable so ask your local 3DHISTECH partner for an offer that suits you best!
